

# BAGSHAWE CAVERN

From surveys by TSG, EEG, & EPC

## Recreational Caving

Experienced and independent cavers have access to the Upper and Lower Series of Bagshawe Cavern. It is vital that recreational cavers are aware of the fragile nature of the Lower Series and are extremely careful to avoid damage

## Instructed Caving

This activity is suited to the Upper Series but smaller more experienced groups may occasionally be taken into the Lower Series.

## Leader Controlled Trips

Experienced cavers can request trips into the two access controlled areas, the Full Moon Series and New Series. The Custodian will contact a Bagshawe Cavern leader who will lead the trip. For these sensitive areas party size is usually limited to four people per leader.
